Client: Club Artizen

Date: 17-01-26

Online Meet

---

## 1. Action Items & Deliverables

- Draft a comprehensive Requirement Document outlining all requested features and project scope.
- Identify and document the full tech stack to be used for development.
- Start the UI/UX Design phase(prototype) next week.

## 2. Technical Requirements & Privacy

- **Prototyping Model:** Development of a functional prototype, and modifying it on weekly basis, based on feedback received from client every week.
- Consultation required regarding privacy protocols and feature sets.
  - Specific focus on privacy access within the chat functionality.
- The Requirement Document should explicitly state "what can be done" to manage expectations.

## 3. Communication & Scheduling

- Request for a direct connection with the technical lead/person.
- Technical person Available for meetings on weekends or weekdays before 3:00 PM.

- Further Communication of APIs will be handled via direct meetings and WhatsApp.
- LinkedIn ID to be shared with the technical contact.
